Help Buck find homes for his friends...

Amanda

Amanda is an Akita/Shepherd mix. She arrived at the HSGA in July after she was found abandoned. She is about 6 years old and 70 lbs. She is an exceptional dog, very friendly, smart, and adores all people. She enjoys playing fetch and knows basic commands like sit, shake with both paws and lay down. She is easy going and loves being petted. Amanda needs a home where she is the only dog. She needs a family to show her how good life can be.

Airwolf

Airwolf came to the HSGA after our humane officers were called out to rescue her. She had terrible eye infections and needed immediate medical attention. One of her eyes is damaged but her sight is fine. She is very affectionate and loves petting. She has a silky smooth, beautiful coat and is around 1 year old. Please meet this sweetie pie today.

PeeWee

PeeWee came to the HSGA after being rescued with 25 other cats from a cruelty situation. He came in May and is around 7 months old now. He is friendly with everyone including dogs, cats and children. He loves to spend time with you and will follow you wherever you go. His eyes are permanently damaged due to the neglect of his owners. He has limited eyesight but you can't tell. Please give this special needs guy a chance

Gretel

Gretel is an American Bulldog/Pit Bull Terrier mix. She arrived in May 2007 due to a cruelty investigation. She and her brother were living in unsanitary conditions, suffering from dehydration, and were extremely thin. Gretel is a complete sweetheart! She is very loving and friendly with everyone she meets and dreams of the day she can snuggle up next to her forever family. She is very playful, smart, and eager to please. She will need a home that has no other dogs, but she promises she has enough love to give you to make up for it!

2008 Consumer Marketing

Adopt one of Buck's four friends and you will receive a six month supply of dog or cat food compliments of Acme and Dads.

For more information call the **Humane Society 330.657.2010**.

All adoptable pets have been spayed or neutered and have current shots.
